

## MEMORANDUM

**To:** Escambia & Santa Rosa TFA County Assembly  
**From:** Jim Costa  
**Date:** 2/1/26  
**Re:** Invitation - Joint Effort To Plan Post Collapse Assembly Structure.

It seems like we are just dancing in shadows regarding our relationship. Therefore, I propose that we work together to have a County Assembly plan for Post Collapse use.

Until we meet and discuss this it is just thoughts. I fear overstepping my bounds and to proceed requires direction and input from you.

If we agree to proceed, this is how I suggest we go about it.

### **We Steal Plans:**

I know the Florida Republic group I was associated with never considered winning and what came after.

I do not know what the TFA has done in this regards. Perhaps it would be best for you to survey the State Association and all Florida County Organizers to see what cards they are holding. That would give us a core plan to discuss and alter.

We might explore other County Assembly seeking the black cat groups as well.

### **We Steal Planners.**

As we steal plans we invite interested planners to join our Forum.  
The more we have the more we can divide the work.

**We Meet** and formalize our general concepts for our plan.

---

### **Below is a Rough Inquiry Letter to other TFA Groups:**

Dear XX:

We are seeking any plans for a County Assembly to step up and align itself with the failing current County Government after the Collapse of the Corporate Federal Government in the United States.

### **Reasoning For Need:**

We do not wish to repeat the nine years of the French nation after the storming of the Bastille in 1789. That era was total anarchy with constant beheading s of most that tried to lead the country forward.

Nor do we wish to follow in the steps of the Dictator Pol Pot in Cambodia during our Vietnam war. He decided to take the country back a hundred years to an agrarian culture. In the process he abandoned all societal infrastructure and genocided all that were educated, could read or wore glasses.

Before he fled, he genocided one fourth of the population and pushed the survivors almost back into the stone age.

---

**If No Current Plan Exists:**

If there is no current plan that we can use or alter for our needs, we invite any interested person in joining a new Forum to create one.

Qualifications: True desire to help get it done. We can tell others it's purpose is to write a "what if" article on the subject.

---

**Time is of the essence** as our current Corporate Governments may collapse very soon. We need to be prepared to step up and pitch in.
